

HIGH GLOSS UV COATING

*High-shine. High-impact.
Designed to stand out.*

High Gloss UV coating delivers brilliant shine and bold color that immediately grabs attention. This finish is ideal when you want your artwork to pop—bright, vibrant, and crystal clear. Perfect for designs that need that **“WOW”** factor.

BENEFITS

- Maximum gloss and color depth
- Eye-catching shine
- Durable surface protection
- Makes graphics and photos look vivid
- Referred to as a Liquid Laminate

GREAT FOR

Bold designs, product showcases, trade show kits, marketing pieces, or any project where you want instant visual impact.

SOFT TOUCH COATING

*A luxe, velvety finish
you can't help but touch.*

Soft Touch adds a premium matte feel that elevates every piece. It transforms your folder into a tactile experience—soft, smooth, and memorable. The muted, elegant surface creates a modern look while still being durable and impactful.

BENEFITS

- Velvety texture that stands out
- Reduces glare for a refined, matte look
- Fingerprint-resistant
- Instantly elevates your brand feel

GREAT FOR

High-end presentations, kits, sales pitches, onboarding packets, and brands wanting a premium elevated look.
